Projects

1. ItemsTrack – A Lost & Found Platform

Overview: A community-based lost and found platform where users can post lost items, and others can report recovered items. Integrated with authentication and secure access.

- ➢ **Live Link** : ItemsTrack Live
- ➢ **GitHub (Client)** : Client Repo
- ➢ **GitHub (Server)** : Server Repo

Major Features:

- — Users can post lost items with descriptions, category, and contact info.
- — Others can post recovered/found items and match with lost posts.
- — Firebase authentication for secure login and user-specific dashboards.
- — JWT-based authorization to protect APIs and ensure data security.

2. A Garden - Gardening Tips Sharing Platform

Overview: A community platform where gardening enthusiasts can share tips, explore others' gardening ideas, and connect with fellow gardeners.

- ➢ **Live Link** : A Garden Live
- ➢ **GitHub (Client)** : Client Repo
- ➢ **GitHub (Server)** : Server Repo

Major Features:

- — Users can post gardening tips with title, image, and description.
- — View other gardeners' profiles and explore their shared tips.
- — Like and appreciate useful tips shared by the community.
- — Firebase Authentication ensures secure login and personalized experience.
